DIARY NOTES

DD/S 

24 August 1962

25X1A9a 1. Mr. Kirkpatrick requested that we try to find out as quietly as possible what is behind the CINCCARIB interest in possible repossession of [REDACTED] 25X1A6d  
(I asked [REDACTED] to do this.)

2. Kirk also requested that I undertake to clarify the contracting responsibilities between the Deputy Director (Support) and the Deputy Director (Research). H  
I told him of my meeting yesterday with Pete Scoville and assured him that we would be coming forward shortly to discuss with him and General Carter the principles involved.

25X1A9a 3. [REDACTED] came to see me regarding several items:

\* a) He reported that the Inspector General has suggested that Central Processing Branch take passport photographs for our employees in lieu of sending them to commercial facilities as is now the practice. I agreed that the Agency might well do this but, in view of facilities already in the building, I hoped that it would not be necessary to have an additional facility set up in Central Processing Branch. (I requested Harry to explore possibilities.)

25X1A9a \* b) After checking with Kirk, I authorized the Director of Personnel (through [REDACTED] to set up an Ad Hoc Committee to screen nominations for the Senior Service Schools and to make recommendations to the Executive Committee. Each Deputy Director and the Executive Director will appoint one representative. [REDACTED] will represent the DD/S.) 25X1A9a

\* c) Harry talked to me about a proposal to incorporate in our insurance program additional features which would pay for dental work, including orthodontists. He anticipated, however, that it might be necessary to employ as many as seven additional people in the Insurance Branch to handle the workload. I told him that I thought the program was well worth pursuing and asked him to do so; at the same time, I was very doubtful that the Government could pay for seven additional employees and suggested that we consider increasing the premium slightly in order to reimburse the Government for the salaries of these employees.

- \* d) Harry advised me that the Office of Personnel still would like to substitute either Mr. McCone or General Carter in the Suggestion Awards movie for the role played by Mr. Dulles. (While I was not sympathetic to this, I have agreed to speak to General Carter about it.)
- \* e) I advised Harry that I was interested in settling the consultant and conflict-of-interest regulation and asked him to see where it stood.
- \* f) I also asked Harry to advise me whether DD/S membership on the Retirement Board had been settled.
